Shelbyville/Shelby County Visitors Bureau

SDC was established in 1984 to encompass all aspects of the Shelby County Community as a broad-based volunteer organization with a paid professional staff. The focus of SDC is on the blend of retail, business, cultural, educational, and residential opportunities unique to downtown Shelbyville.

Those who benefit from the work of SDC include governmental bodies, residents, interested citizens, business leaders, property owners, consumers, educators, cultural groups and professionals. All are working together as partners of SDC. Everyone has a different reason for being involved and all contribute in a different way.

Shelby Development Corporation provides professional downtown management through a cooperative effort with all those involved in the central business district. Through the use of the Shelbyville 2020 Plan, a network of communities in action is addressing all aspects of our community.

**We make downtown better.**

*Promoting the responsible development and retention of our downtown communities.*
